

The Klove station is very encouraging. My co-workers and I listen to it all of the time and love their mission, support, and music. The broadcast allows listeners the opportunity to call and talk to someone 24 hours a day. But people won't know they are available unless they hear it on the station. The station not only encourages but witnesses the love of Christ through words and deeds. My family loves it and others in my community also. We need Klove to continue to broadcast and reach many people for various reasons.
